SUMMARY

A dedicated and enthusiastic backend developer with over 2 years of experience crafting clean, well-tested Laravel applications, RESTful APIs, and scalable web platforms. I take pride in designing intuitive APIs and reliable database systems, and I genuinely enjoy learning new tools and collaborating with a team to solve meaningful problems. I am committed to writing maintainable code and contributing positively to every project I am part of.

EXPERIENCE

Laravel Developer — Makura Creations2024 – Present · Pulchowk, Lalitpur

- Design and build RESTful APIs for Learning Management Systems (Udaan, SmartAcademy, Gurumantra) using Laravel, with token auth, versioning, and documentation.
- Integrated packages including Spatie Media Library and Roles & Permissions; implemented authentication with Laravel Sanctum & Passport.
- Developed travel-booking and e-commerce platforms with Laravel & MySQL — bookings, cart, order management, and payment-gateway integration.
- Designed optimized database schemas and complex Eloquent queries for MySQL and PostgreSQL.
